Patterned Glass

for light, privacy and style

N&C Patterned Glass is an attractive solution available in various styles, from contemporary to classic. The perfect option for allowing more light into an internal room and where levels of privacy or obscuration are to be achieved. Four levels of obscurity are available, graded from 2 (least obscuration) to 5 (greatest obscuration).

Our N&C Patterned Glass is suitable for use in insulated glass units (IGU's) and can be toughened to meet the requirements for safety glass in areas such as glazed doors, side panels, bathrooms and low level glazing as well as furniture & protective barriers.
