

Eco-Lite™ Slim

Ultra Slim Sealed Units

In addition to the already well established Eco-Lite™ Slim standard Sealed Unit, N&C Glass have developed an advanced Ultra Slim Sealed Unit incorporating a unique warm edge spacer bar. This unique product now offers a true solution for a traditional wooden window and restoration market.

Details are paramount when retaining a buildings' established appearance so at N&C we pride ourselves in offering glass solutions that accentuate the beauty of period properties yet attaining modern features that eradicate problems caused by old windows.

N&C Eco-Lite Slim Plus is available in a range of finishes available for renovating or the restoration of period properties. Each option offers a reduced sightline and manufactured as a traditional hermetically sealed unit.
